PROFESSIONAL SUMMARY

Dedicated and curious fourth-year Bachelor of Science in Information Technology student with a strong passion for software engineering and full-stack development. Experienced in building real-world solutions using Java Spring Boot, React/Next.js, and SQL databases, and recognized for leadership as a project lead. Highly adaptable, meticulously organized, and committed to leveraging practical skills in software development to contribute to innovative, high-impact projects.

TECHNICAL SKILLS

- Languages: Java, JavaScript, TypeScript, PHP, SQL
- Frameworks & Libraries: React, Next.js, Spring Boot, .NET, Node.js
- Databases: MongoDB, MySQL, PostgreSQL
- Tools & Platforms: Git/GitHub, Docker, Raspberry Pi, Linux, Networking
- Practices: Agile Product Management, Project Management, Database Systems Design

WORK EXPERIENCE

Data Encoder

April 2022 – June 2022

State Lab Clinics and Diagnostic Center — Cubao, Quezon City

- Accurately encoded and updated patient information, laboratory results, and other critical data into the clinic's management system.
- Managed and organized digital and physical files, maintaining strict confidentiality in compliance with data privacy standards.

PROJECTS

LoopHabit — Habit Tracker (Web & Android)

- Built a habit-tracking app with a Next.js web version and a native Android version (Kotlin, Android Studio) featuring a clean, modern UI for creating and maintaining daily habits.

Tech: Next.js, Android Studio, Kotlin, Java

Attendance Management System — Full-Stack IoT Enterprise Solution

- Developed an end-to-end attendance system with a Java Spring Boot backend and a React (Vite) frontend, deployed on a Raspberry Pi running PostgreSQL.
- Implemented Flyway database migrations, SMTP email automation, security whitelisting, and a standalone Windows .exe installer.

Tech: Java, Spring Boot, React, TypeScript, PostgreSQL, Raspberry Pi, Flyway, Linux

Wallet — Digital Wallet Application

- Built a modern digital wallet app with Next.js for managing transactions, balances, and payment history, backed by MongoDB.

Tech: Next.js, MongoDB, Tailwind CSS, TypeScript

Accounting & Finance System — Financial Management Application

- Developed a complete PHP-based accounting and finance system for tracking transactions, generating reports, and managing financial data.

Tech: PHP, MySQL, HTML, CSS, JavaScript

EDUCATION

Bachelor of Science in Information Technology

Aug 2023 – Present

Quezon City University — Quezon City, PH

CERTIFICATIONS & LICENSES

- NSE 1 Network Security Associate — Fortinet
- NSE 2 Network Security Associate — Fortinet
- Technical Introduction to Cybersecurity 3.0 — Fortinet
- Introduction to the Threat Landscape 3.0 — Fortinet
- Security, Compliance, and Identity Fundamentals Certificate — TESDA
- Responsive Web Design Certificate — freeCodeCamp
